PROFESSIONAL SUMMARY

Full Stack Developer, Shopify Developer, and AI Automation Engineer with 2+ years of remote experience designing and delivering high-converting e-commerce stores and intelligent automation systems for international clients. Combines deep Shopify Liquid expertise with modern full-stack development (Next.js, React, TypeScript) and AI integration (OpenAI API, n8n, Zapier) to build digital products that measurably grow revenue, reduce operational overhead, and scale efficiently. Track record includes a 40% revenue increase for a fashion brand, a 60% reduction in customer support load through an AI-powered chatbot, and multiple Shopify stores that generated their first paying customers within the first week of launch. Immediately available for remote-first roles across the US, UK, EU, Canada, and worldwide.

PROFESSIONAL EXPERIENCE

Devvys

Social Media Marketing Manager

Oct 2025 – Present

United States · Remote

- Own the full social media marketing lifecycle for a US-based brand — from campaign strategy and content calendar development to execution and performance analysis — achieving consistent 35%+ month-over-month growth in brand reach across platforms.
- Architect and run data-driven paid advertising campaigns on Meta Ads; applied audience segmentation and iterative A/B testing to improve engagement rate by 28% and reduce cost-per-click by 20% within the first quarter.
- Build and deliver weekly executive dashboards using Google Analytics GA4 and Meta Ads Manager, translating raw performance data into actionable insights that drive strategy adjustments and maintain 15% sustained traffic growth.

EyefinityZone

Social Media Manager

Dec 2024 – Present

Pakistan · Remote

- Designed and executed a content-first social media strategy for Instagram and Facebook that grew combined follower base by 40% in five months, significantly increasing brand visibility and qualified inbound leads.
- Produced 50+ high-quality branded assets using Canva Pro; developed a structured community management playbook covering DMs, comments, and promotions that tripled direct message inquiry volume and reduced response time by 60%.

Independent Consultant

Shopify Developer & E-Commerce Strategist

Jan 2024 – Present

Remote · International Clients

- Designed and delivered 3–4 full-scale Shopify stores for international clients from discovery through launch — custom Liquid theme development, mobile-first UX, SEO-optimized product architecture — with first-week revenue achieved across multiple projects.
- Drove a 40% revenue uplift for a D2C fashion brand by re-engineering the Shopify storefront: redesigned product pages for CRO, implemented upsell and cross-sell flows, streamlined checkout UX, and launched supporting Meta Ads campaigns.
- Developed an OpenAI-powered customer support chatbot integrated with Shopify's REST API — automated resolution of 80%+ of inbound support tickets, cut team support workload by 60%, and saved an estimated 20+ hours per week in operational costs.
- Executed comprehensive Technical SEO audits and Core Web Vitals optimization on client stores, improving Google PageSpeed scores by 30+ points and increasing organic search traffic by 25% within 90 days.
- Engineered automated marketing pipelines connecting Shopify, Klaviyo, and CRM tools via Zapier and n8n — eliminated 70% of repetitive manual marketing tasks and deployed real-time abandoned cart recovery flows that recaptured lost revenue.
