AI Engineering • Full-Stack Web Development • AI Automation • Shopify & E-Commerce • API Integrations • AI-Powered Business Solutions

LINKEDIN RECOMMENDATION

René Schildt — Business Development | Project Management | AI & Web Solutions | E-Commerce Strategy

Client recommendation • March 20, 2026

“I had the pleasure of hiring Khanzadi Wazir Ali for one of my clients a few months ago to design and develop a new website with a full-featured online shop. From start to finish, Khanzadi impressed both my client and me with her deep expertise in web development, Shopify, and e-commerce strategy. What truly sets her apart is her ability to balance technical mastery with a collaborative mindset — she not only executes flawlessly but also listens carefully to feedback, offers thoughtful suggestions, and finds smart ways to enhance the final product. Her understanding of digital marketing, AI, and automation adds real strategic value, helping brands grow intelligently rather than just getting things done. Khanzadi is a reliable professional who delivers excellent results and is a pleasure to work with. I can highly recommend her to anyone looking for a skilled and forward-thinking web developer or Shopify expert.”
